ENR RUSSIA INVEST SA ANNOUNCES ANTICIPATED 2012 CONSOLIDATED NET PROFIT AND ATTRIBUTABLE NET ASSET VALUE PER SHARE AS WELL AS A NEW PRIVATE EQUITY TRANSACTION

2012 Consolidated Net Profit and Attributable Net Asset Value per share

ENR Russia Invest SA (“ENR” or the “Company”) anticipates posting a consolidated net profit of some CHF 20 million for the 2012 financial year which ended on 31 December 2012 (2011: CHF 7.21 million consolidated net loss). The 2012 numbers are currently being audited and ENR’s audited results will be released before 30 April 2013.

The sharp increase in the Company’s 2012 net profit, amongst other things, was due to ENR’s successful exit from its private equity investment in Eastern Property Holdings Limited (“EPH”). On 20 December 2012 ENR announced that the sale of its investment in EPH will have a positive impact on its net asset value (“NAV”). The 2012 year-end attributable NAV per share of ENR is anticipated to be around the CHF 45 levels (CHF 37.74 at year-end 2011), representing an increase of some 20% year-on-year. This brings the NAV of ENR in CHF up to the pre-crisis levels in 2007.

New private equity transaction

ENR, via its Cyprus subsidiary ENR Investment Limited (“ENR Investment”) has signed transaction agreements with OOO RS Nedvizhimost (“RSN”) operating under the OptCvetTorg® brand for a new private equity transaction in the Russian Federation (“Russia”). ENR Investment will have a 50% interest in this flower retail business and will invest €1.4 million, subject to agreed business plan benchmarks being achieved. RSN sources ready-made flower bouquets from a leading fresh-cut long stem flower producer (“Flower Production Unit”) in Russia and via a chain of some 24 indoor based outlets sells these flower bouquets to the public. With this transaction ENR gains a foothold in a growth segment of the Russian consumer economy and it is planned to make a follow on investment in the Flower Production Unit.

The parties to the flower retail transaction are attending to practical implementation steps and hope to fully close out the transaction within some 45 days.
